to water but you can't make him drink.

You can't make him eat either. You can stuff food into a thin man's stomach but that doesn't make him use it.

Scott's Emulsion can make him use it. How? By making him hungry, of course. Scott's Emulsion makes a thin body hungry all over. Thought a thin body was naturally hungry didn't you? Well it isn't. A thin body is asleep—not working—gone on a strike. It doesn't try to use its food.

Scott's Emulsion wakes it up—puts it to work again making new flesh. That's the way to get fat.

### ANNOUNCEMENTS.

The friends of Richard C. Burns have announced that he is a candidate for Congress in this district in 1902, subject to the action of the Republican party. He believes that a mountain man is as good as any one.

Put down crime by putting up the criminals. It's the only way.

Representative Kehoe has secured \$30,000 for a government building at Maysville.

It is time for the law-abiding people of this section to rise in their might and put down crime.

The law is not being enforced, and crime is running rampant. Give the criminals all they deserve and they will stop and think several times before shooting or cutting once.

Delegates have been selected from several counties to attend the Sixth Appellate District Democratic Convention at Maysville, May 6. All are favorable to the re-nomination of Judge Thomas H. Paynter.

The River and Harbor Bill is now in the hands of the conference committee, composed of members from the House and Senate. As soon as an agreement is reached on the amendments added in the Senate the bill will be reported, and probably passed without much delay. It is understood that there is a considerable contest over the amendments.

The breaking of the banks along Big Sandy river is getting to be a serious matter. Every owner of land along the banks of this river should persist in setting out trees, down to the water's edge, until a growth sufficient to stop the breaking is established. It is not only to the interest of every property owner to do this, but it will result in good to the public and river interests in general.

The criminal record in this and neighboring counties has grown to an appalling extent. It has reached an alarming stage. If the good citizens do not assert themselves in a very positive way right now, there is no telling where this thing will stop. They should demand of the officers a tricter enforcement of the laws, and that only the best class of citizens be on juries. The death penalty has been earned by some of our criminals, but when they fail to get it, the laws lose their terrors for the most vicious class. Every citizen should make himself heard on this most important subject without further delay.

I was much afflicted with sciatica, writes Ed. C. Sud, Louisville, Sedgwick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three five-cent bottles. It is the greatest liniment I ever used; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c five and \$1.00 at A. M. Hughes.

Residence Burned.

The residence of J. M. Brown, at Lowmansville, near the line between this county and Johnson, was entirely destroyed by the Tuesday night. Nothing whatever was saved from the house, and the inmates did well to escape. This place was well known to all traveling men, as the Browns had kept a boarding place there for many years.

Va., which proposes to build a railroad in McDowell County, this state, starting from a point on the upper waters of Tug River and continuing down that stream to its mouth, where it will connect with the Norfolk and Western Railroad. There is an aching and tired feeling the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind needs rousing up. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at A. M. Hughes.

James Prebhard, of Round Bottom, was over Monday. He says that the proposed railroad down Sandy runs through his bottom land for a distance of several miles, cutting out 80 feet for right of way. It is safe to predict that the company will have to pay him a stiff damage or light every inch of the ground in the courts. Mr. Prebhard got about \$1,000 damages for right of way for the gas pipe line and it did not run through his best lands. —Wayne News.

The Huntington officials of the Guyan Valley Railroad were in Richmond the first of the week in conference with the officials of the C. & O. to regard to the extension of the G. V. line to this place. The C. & O. appropriated \$500,000 for the extension and work will probably be commenced by May 1st. Vice President D. Axtell and Chief Counsel Wickham, of the C. & O., yesterday, and went up the G. V. line in company with Hon. J. L. Caldwell and Attorneys Simms & Easlow. —Logan Banner.

### Of Interest to Farmers.

At a sale of Angora goats in Kansas City, 1,900 head averaged \$32.50. Registered does sold up to \$48.25, and the average of the full fleeced does registered was over \$15 for 186 head. Kid does in lots of 20 or more sold up to \$1.50 and \$5 each. Good times better roads, better education. There are few investments equal to a good stock farm wisely managed. Don't get hard poor. Go slow on luxuries but don't skimp on labor-saving conveniences about the house. Have a big barn, of course, but don't overlook sensible improvements in the living quarters. One doesn't need an expensive house to have a cozy one.

Town leads the States of the Union in the number of chickens, including guinea-fowls, having 13,307,733; Illinois is second, with 10,699,928; Texas leads in number of turkeys, with 618,671; Missouri is second, with 466,671. Kentucky leads in number of geese, having 512,576.

An increase in the number of eggs produced rather than an increase in the number of different kinds of fowls marks the progress of this branch of the industry.

It is said that fully half a million women are employed in the Western States as harvest laborers and general farm hands. This is accounted for by the numerous improvements in agricultural machinery, which enable a woman to do the work as easily as a man and also by the large number of women who own farms and manage them themselves. This is especially true in Iowa, Indiana, Kansas, Nebraska and Minnesota, where there are many of 100-acre homesteads. Persons who are accustomed to work in those States see that many cases the women make more money out of the farms than did the husbands or fathers from whom they inherited them.

PRESTONSBURG.  
Desperate Battle Between Officers and a Fugitive From Virginia. Fugitive and Friend Killed.

School is flourishing. Miss Paralee is having fine success teaching music. She is a good teacher.

Rev. Pennypacker preached Sunday forenoon and evening. His sermon on Worship was very interesting and instructive. The audience was large and appreciative.

Fat Osborn and Bud Little were killed above the mouth of Otter creek on Beaver, April 28th by J. W. Freely, Constable and posse, consisting of J. C. Cook, Lefe and Gus Little and H. C. Reed. Osborn was charged with murder in Virginia and was a fugitive from justice. A reward was offered by Virginia authorities and the warrant was in the hands of Freely. Bud Little was with Osborn and tried to keep him from being arrested. Little and Osborn fortified themselves in a barn and held the officers shooting at them. When the officers attempted to enter the barn, to save their own lives they were compelled to shoot Osborn and Little.

The constable showed your correspondent where Osborn shot him.

In the back of the head a week ago. The ball did not break through the occipital bone but glanced off. The above mentioned officers came here and surrounded them. They each gave a thousand dollar bond for their appearance at next term of court. People who know the Constable and his men speak well of them, but say that Osborn was a noted outlaw. Little is thought to have been drinking.

The Committee for this Congressional District met Tuesday, but we have not heard what they did. Judge Morrell and a number of our boys are surveying for J. C. Mayo.

**Special Judge in Pike.**

Judge Riddle, an attorney well  
known throughout the State, passed  
up Tuesday on his way to Pike-  
ville to act as special Judge of the  
Circuit Court now in session there.  
He will preside during the trial of  
important issues in which Judge  
Aukler is disqualified by relation-  
ship.

**Church Dedication.**

Dr. Boland will dedicate the  
new church (Moore's Chapel) on  
Hillside circuit on next Sunday, May  
4th. He will also hold the Quar-  
terly meeting on Saturday. All  
are invited to attend these services.  
On this account there will be no  
services at the M. E. Church South  
in Louisa Sunday, except Sunday  
School, which will be held at the  
usual time.

**Farm Products Needed.**

It is not likely that there will  
be any overproduction in agricul-  
ture this year, says the Farmers'  
Home Journal. There is such a  
scarcity of everything produced on  
the farm that if every acre plant-  
ed should produce double the aver-  
age yield it would not be too much.  
We need more wheat, oats, cattle,  
sheep and hogs; therefore farmers  
should work to produce big crops  
without fear of an overproduction.  
The effect of a great yield would  
be to cheapen prices to a certain  
extent, which would cause general  
rejoicing.

**Muncy-Meck.**

Miss Edna Meek and Elbert  
Muncy were quietly married at the  
home of the bride last Wednesday.  
A small crowd of friends gathered  
about 8 p. m. Then appeared the  
bride and groom, and the handsome  
groom, Rev. L. M. Copley per-  
formed the ceremony. Then all  
marched to the dining room where  
a grand supper was served. The  
bride is the daughter of F. Meek,  
and the groom is the son of Rev.  
James L. Muncy, deceased. Both  
bride and groom are of high stand-  
ing in society. The bride is a  
member of the Baptist church.  
May life be long and happy to  
them both.

**Circuit Court.**

Circuit Court is still in session,  
but will probably close its work  
for the term today.

The most important case within  
the past week was that of Morris  
Griffin's administrator against  
Guino Johnson, Jr., and the Equi-  
table Insurance Company. Griffin  
died in the purchase of this com-  
pany with \$10,000 insurance on his  
life. It was assigned to Johnson,  
Jr., however, and the insurance com-  
pany paid the amount to them.  
John Hayes was appointed adminis-  
trator of the plaintiff's estate and  
brought suit to recover the insur-  
ance. Johnson lives at No. 10, Ster-  
ling. After consulting about two  
days on the case it was decided to  
continue until next court. The  
continuance was secured by the  
defense.

**Serious Cutting Affray.**

On Georges Creek last Sunday  
morning Ed Lloyd cut and danger-  
ously wounded Thos. J. Dalton.  
The trouble occurred on the path  
he road near Lloyd's home. An ill  
feeling had existed between the  
men for quite a while and had  
been aggravated recently by some  
remarks made by them about each  
other. Dalton attends Sunday  
School regularly and passes Lloyd's  
house in going there. When on  
his way last Sunday Boyd and E.  
Wiley were standing by the road-  
side. Dalton was riding. With  
him were Jesse George, Iloe, De-  
bort, Lawrence Kaze and Joe Davis.  
It is said that when Dalton  
was passing, Lloyd addressed a re-  
mark to him and then threw a rock,  
striking Dalton with sufficient  
force to wound him. Dalton caught  
the horse's mane as he went down,  
and alighted on his feet. Lloyd  
had rushed up with his knife in  
hand, and at once slashed him in  
the abdomen, under the horse's  
neck. Dalton started to run and  
Lloyd stabbed him near the stum-  
per blade.

The wound in the abdomen is  
causing Dalton and his friends  
much apprehension, but the latest  
reports of his condition are favora-  
ble.

Boyd came to Louisa and sur-  
rendered and was placed under \$500.00  
bond. The examining trial will  
be held as soon as the results of  
Mr. Dalton's injuries are assured.

Dalton is about 36 years of age,  
unmarried, and was formerly a  
school teacher. Boyd is married.

**SUDDEN DEATH.**

The Wife of County Judge R. F.  
Vinson Passes Away.

This community has not been  
more severely shocked lately than  
it was last Sunday night by the  
sudden death of Mrs. R. F. Vinson,  
wife of our esteemed County Judge.  
The fatal summons came about  
9:30 Sunday night, at her home  
one mile from Louisa.

Mrs. Vinson had retired in ap-  
parent good health and in excel-  
lent spirits. In a short time, how-  
ever, she was attacked by some-  
thing like congestion of the lungs,  
and grew rapidly worse. Her hus-  
band and son day were with her.  
The latter called in some neigh-  
bors and went after Dr. J. D. Biggs.  
But by the time the latter arrived  
the good woman was beyond the  
aid of human skill. She lived only  
thirty minutes after becoming ill.

The funeral took place Tuesday  
at one o'clock from the residence,  
Rev. John T. Johnson, of the M. E.  
Church South, an old friend of the  
family, preached the funeral ser-  
mon, and Dr. J. M. Boland, pastor  
of the M. E. Church South at this  
place, assisted with the services.  
The remains were laid to rest in  
Pine Hill Cemetery near the newly  
made grave of her granddaughter,  
Mrs. E. B. Hager. A large num-  
ber of people attended the funeral  
and the interment. Mrs. Vinson  
was in her 62nd year. She was a  
woman of much intelligence and  
refinement. Deeply devoted to  
home and family she led a quiet  
and somewhat secluded life, but  
all who knew her had the highest  
respect and admiration for her.  
Death has taken her in the midst  
of a happy maturity. Her health  
was good enough to give the fam-  
ily hope that this faithful wife and  
mother would be with them for  
many years. The uncertainty of  
life has a most forceful illustra-  
tion in this sad case. It is espe-  
cially so to a number of friends who  
were driving out past the Vinson  
home on that beautiful afternoon  
of last Sunday and stopped to talk  
with Mrs. Vinson, who came out  
to the fence.

Deceased leaves a husband,  
three daughters and two sons—  
Mrs. R. J. Priehard, Mrs. A. J.  
Garrod, Mrs. J. T. Groover, G. J.  
Vinson, cashier of the Bank of  
Louisa, and attorney Jay A. Vinson.  
Mr. and Mrs. Groover arrived from  
Tazewell, Va., in time for the fu-  
neral. Col. Jack May, of Vir-  
ginia, a distinguished uncle of the  
deceased, also came. Others from  
a distance who attended the fu-  
neral were: Mrs. G. W. Hutchin-  
son, Mrs. J. P. Ratcliff and Mrs.  
Felix, of Huntington.

Mrs. Vinson was a daughter of  
Dr. Randall, who died a good  
many years ago. Her mother died  
only a few months ago, in Wis-  
consin.

eling salesman, formerly of this  
place, is now experiencing the joy

is Edward Oscar.

Albert Murray has moved from  
the cottage adjoining the residence  
of W. N. Sullivan into the house  
with his father. He will leave soon  
for some point on the Ohio river  
where he will work during the sum-  
mer. His wife will accompany him.  
Tom Hatcher has moved into the  
house vacated by Mr. Murray.

State Insurance Commissioner  
Clemmatt has completed his report  
on the life insurance companies do-  
ing business in Kentucky. It shows  
that sixteen have withdrawn since  
January 1, 1901, while seven new  
ones have entered the field. Two  
have been placed in receivers' hands,  
another application for a re-  
ceiver is pending and 111 com-  
panies are now operating.

Mr. and Mrs. J. W. M. Stewart of  
121 Bath avenue have issued in-  
vitations for an "At Home," Tues-  
day the sixth of May from eight  
until twelve o'clock. The invitations  
are beautifully engraved and the  
affair promises to be one of the  
most elegant functions of the sea-  
son. The magnificent Stewart  
home is well adapted for entertain-  
ing and both the host and hostess  
are ideal entertainers.—Ashland

A number of these invitations  
have been received in Louisa.

**The Weekly Shooting.**

Hiram Blackburn shot Jonas  
Payne Monday on Little Blaine.  
Payne had his head in his trousers  
pocket and the ball passed through  
the hand and into Payne's thigh,  
causing a severe wound.

Blackburn is a son of Harmon,  
and is a young man not out of his  
teens. Payne is about 20 years of  
age.

Reports say that Payne was  
wrought up over some remarks  
that were alleged to have been  
made by Blackburn, and that he  
had threatened to whip Blackburn.  
The shooting occurred when they  
met.

Conductor Meyers has resumed  
his run on the passenger train,  
after a week's vacation. Jack  
Johnson, was in charge during his  
absence.

A letter from P. H. Loar, who  
has been at Asheville, N. C. since

He has gained 18 pounds in weight,  
and is feeling quite well. He will

season, when continued warm  
weather is assured.

ing graduated with the highest  
honors from the Ohio Medical Col-  
lege a few years ago, and having  
had considerable hospital experi-  
ence.—Ashland Daily Independent.

Dr. Layne is a Louisa product  
of whom we feel very proud. He is  
right up at the top in his profes-  
sion.

**Railroad Matters.**

There is nothing particularly  
new in the railroad situation up  
the Levisa fork of Big Sandy.

The C. & O. has about 300 men at  
work on the line at the upper end,  
and contractors are now inspecting  
the route between Whitehouse and  
the Breaks preparatory to bidding  
upon the work. Right-of-way mat-  
ters are beginning to take definite  
shape.

It is reported that the Seaboard  
Air Line people are not so satis-  
fied as they were. One report says  
their forces have been withdrawn from  
the Breaks. Others contend that  
they are still intending to build.

Vice President Atwell and Solie-  
tor Wickham, of the C. & O., ex-  
pressed themselves as having been  
more favorably impressed with the  
route and the country after a trip  
up there than ever before.

**A TRIBUTE OF RESPECT.**

The following tribute was written by  
Miss Mary Middleton Stewart, of Point  
Pleasant, W. Va., in memory of Mrs.  
Lucie Priehard Huger:

I beheld a lovely vision tonight  
A bright, smiling face so fair,  
With the crimson blood glowing in  
cheeks and lips.

And beautiful, jenny colored eyes, and  
golden hair,  
And her voice like a chime of silver  
bells.

Ringed musically in my ear,  
And the dimples in her cheeks coming  
and going I see.

And smiling on her joyous, youthful face  
The future is constrained to join in her  
glow.

I still can see her graceful figure  
As she walks along the streets,  
As with a beaming smile,  
She recognizes all she meets.

For she was a general favorite, at home  
and abroad,  
And would win friends wherever she  
would go.

By her amiable, gentle and happy dis-  
position,  
And you have such as few could know,  
And the sound of her voice comes back  
to me.

And sweetest memories of the past  
new in my heart,  
Like statues of half forgotten melody,  
Which linger in the mind, and does  
not depart.

Oh what world life be without these  
memories  
Of the beautiful dreams which have fled  
When our paths were rose strewn, our  
hearts untroubled.

And our little tears washed,  
She was so much child, and very much  
adored,  
But that did not injure her in the least  
For she was of unselfish disposition or  
any narrow kind of life.

We are glad for her old gain,  
We are glad that death loves a shining  
mark,  
And believe the remark to be true,  
For generally the brightest, loveliest  
and most prized  
Are the first to fade from our view.

I thought her life would be long and  
happy,  
Spent in enjoyment for years to come,  
That death would leave this lovely  
flower  
To long adorn and gladden her home.

No, I never supposed for an instant  
That death's cruel frost could blight  
Her loved ones, most precious flower,  
the jewel.

And plunge them into serious night  
But she heard her Savior calling her.  
Out of the shadows dim,  
And she laid her sorrowing friends  
and goodby.

And passed quietly forth with Him.  
She put her hand in His and pierced one,  
And drifted confidently out in His care.  
And He led her through the silent river  
To her home in Heaven's mansion fair.

She has passed away in her beauty,  
To that land where they never grow old  
And no pain or illness can ever enter  
Beneath the tree of life on the streets of  
gold.

She joined with the choir here on earth,  
To sing of Christ's redeeming love,  
That can never on earth be fully told.  
Now her sweet voice sings the anthems  
That ring through the city of gold.

Yes, gather around the casket  
Weeping, and weeping all day long,  
God has only taken your precious ones  
and are  
To join her angel sisters beyond the  
clouds.

Yes, twine the roses and lilies together  
For an emblem to place on her heart.  
Fit emblems the roses of the bright  
lovely life.

And the lilies of the spotless purity  
of our darling who has entered into rest.  
They also represent your love for her,  
And the pure faith and joy in her  
heart.

That after the joys and sorrows of life  
You will join her never more to part  
Where no hands are clasped in sad fare-  
wells.

And no lips give the goodby kiss,  
For death is a tender friend  
From that kingdom of perfect bliss.

Yes, they were those fragrant flow-  
ers in the form of hope,  
A type of the one she has gained on that  
land.

Where the crystal waves of life's river,  
And while you are weeping in anguish,  
Prostrated beneath your burden of  
care.

Her eyes view the wonders of Heaven  
And glories no mortal may know  
Yes, she lies there sleeping before you  
On her lips her familiar smile.  
As if she was only resting.

And her blue-eyed eyes would open  
And they will in that morning,  
Which will usher in that never ending  
day.

And her smiling face will greet you  
again,  
And death will lose his sting and sep-  
arate for aye.

I often think of our Father  
Takes our darlings out of our grasp  
home,  
Because He wishes us to set our affec-  
tions  
More on the hand to which they have  
gone.

And I do not believe it is so distant  
That glorious home to which they have  
gone.  
I believe that if our ears were not clog-  
ged with earthly fetters  
We could hear the redeemed one's songs  
For we are told a word of immortality  
Hold him bright array.

So you see that our own are continually  
looking  
Up to the eternal day,  
And I think that must be one reason  
That there is no sorrow in Heaven  
That in our journey up to meet them  
A view of us is then given.
